DenizBank wishes the best of luck to all the teams participating in the 2017 CEV Volleyball Champions League Final Four – Women.

Foreword by the CEV President Aleksandar Boričić

Dear Volleyball friends,

It is finally time for the greatest Volleyball party of the year with the top four teams in Europe taking to the court in Treviso where the most coveted Volleyball crown will be at stake.

Treviso and the Palaverde will provide the stage for the world's best Volleyball players to perform and for thousands of fans from the whole of Europe to enjoy an experience they will never forget!

A full house is what we all expect to witness the climax of an extremely exciting season following the revamping of the CEV Volleyball Champions League. This year's edition has provided every country's national champions with the opportunity to register and participate in the world's most prestigious club Volleyball competition.

It is the aim of the CEV leadership to turn the Final Four into much more than just a sporting event of the highest level. Actually, we want everyone, from those filling up the stands to those following the matches on TV and on the Internet to feel the ambiance and atmosphere of a real show unfolding on the court, as well as off the court!

I am confident that the passion and enthusiasm jointly shown by the hosting Federation and their President, Pietro Bruno Cattaneo, the organising club Imoco Volley CONEGLIANO, together with the support given by the European Volleyball Confederation and the numerous CEV sponsors and partners, will help us deliver the ultimate Volleyball show!

I look forward to sharing a memorable weekend with you all and wish the best of luck to all participating teams.

Yours sincerely,

Aleksandar Boričić
CEV President

Foreword by Italian Federation (FIPAV) President Pietro Bruno Cattaneo

As President of the Italian Volleyball Federation I can only be happy and proud that such a prestigious event like the Final Four of the 2017 CEV Volleyball Champions League - Women will take place in Italy.

A unique event of its kind involving the thousands of fans who will come from all over Italy. Whenever the European Confederation decided to entrust tasks like this means that the brand of "volley made in Italy" means reliability and organizational quality.

The club of Imoco Volley Conegliano really has a great opportunity to show all their qualities in terms of sport and managerial level.

My wish is to attend games at the highest technical level, as always happens in a Final Four of the CEV Volleyball Champions League.

I am certain that the organizers of Conegliano assisted by local committees are working hard to ensure fans a spectacular show.

I wish the best to the organizers and to all the athletes, knowing that they will be the protagonists of a two-day volleyball party that will be remembered for a long time.

Pietro Bruno Cattaneo
President of Italian Volleyball Federation

Foreword by Regione Veneto President Luca Zaia

The Champions League Final Four matches, played with championship T-shirts, are the crowning achievement of an extraordinary sport story called Imoco Volley.

It was not so long ago when the families Garbellotto and Maschio, to whom we must express all our gratitude, had the courage to support this team in difficult times, when one did not know whether to push forward or whether the dream was over – and today we are here, at the Palaverde hall, to compete with the other three best teams in Europe for the most prestigious continental trophy.

I hope I will be forgiven by the opposing Turkish and Russian teams, whom I greet warmly, and to whom the welcome of the Veneto region and of the Veneto people goes – a land and a people of sport par excellence – but I sincerely hope that the roar which will greet the panthers at the start of the match will be memorable, one of those moments who will not be forgotten by those who were present, and also a means to thank the whole club, all the players and their coach, Mr Mazzanti, for all the achievements and the joys they have already brought to their fans, to sportspeople and to the Italian women's volleyball movement.

In any case, whatever the result, may the best win, may sport and genuine enthusiasm win, enthusiasm for one's favourite team, and not against opponents.

In any case, I am confident that the winner will be the organizational capacity and the hospitality of Imoco Volley, a club which has made efficiency and competitiveness its inspiring criteria, and at the same time has had special consideration and love for young and very young players, approximately 600, who make up an extraordinary youth sector, a symbol of the future but also of the social function which distinguishes Imoco from many other teams. I can only imagine the joy of these girls if fate and ability will allow them to raise the Cup through the hands of Serena Ortolani: a thrilling experience. Each match, each set and each side out will be a whole other story, but what is certain is that an important piece of history of sport for Treviso, for the Veneto region and for Italy will take place at the Palaverde hall.

The rest will be played by the warmth of a cheerful and competent public, the technical abilities of the athletes, and the clever tactics of the coaches, with "those" line changes which can be decisive factors for the outcome of a match.

Luca Zaia
Regione Veneto President

Foreword by Imoco Volley President Piero Garbellotto

Dear Sport and Volleyball lovers,

We have started the countdown to the F4 Champions League which will take place on 22nd and 23rd April 2017, where the best four teams in the competition will compete for the highest position in Europe.

Our homeground "Palaverde", a sports hub which has already hosted the most prestigious European competitions, is dressing up for the occasion. We are putting the finishing touches to two days of sport and entertainment which we are certain will be memorable.

Our area is proud to welcome all European guests in comfort so everyone may admire our towns and cities, famous for their art and wine.

The wine, with its green vineyards of Prosecco DOC like an emerald mounted between romantic Venice and the crisp Alpine landscapes of the Dolomites, will delight your palate.

Our association is looking forward to welcoming you to this great event; after only 5 years of high level volleyball we are honoured to host the Volleyball Champions League Final Four – Women 2017.

We would like to thank everyone who has supported our candidature, from president Borčić, to the Italian Volleyball Federation, to the whole of the European Volleyball Confederation. Our thanks go also to the bodies and institutions that will contribute to the success of this event.

Piero Garbellotto
Imoco Volley President

The location: PALAVERDE

Palaverde is the indoor sporting arena “home” of the Panthers of Imoco Volley Conegliano and it is located in Villorba, 5 kilometres from Treviso, the capital of the province.

It was built in 1983 by the Benetton Group, which is also the owner, and it was one of the first private sporting arenas in Italy. It is half underground and has a seating capacity of 5344, which increases by one thousand during concerts, in which spectators can also occupy part of the volleyball court. It consists of three tiers: one on the underground floor, another one on the ground floor and the third one on the upper floor.

It has four changing rooms for players, in addition to the ones for referees and judges. Inside the arena there is also an infirmary, a weight room, a room for doping control, an office and a directional zone that operates the cubic scoreboard above the court and the four giant screens in the corners of the arena. There is a large parking space outside, with more than three thousand parking lots.

It has been hosting all of Imoco Volley home games since the 2012/13 season, both in the championship and cup matches , and very often its 5344 seats have all been sold out which has earned the spectators of the yellow and blue Panthers the record for the highest number of spectators of Italian Serie A1 each year since 2013.

Recently Palaverde was the venue of the Supercoppa final in December 2016, and of Coppa Italia final four in 2014. Since 2014/15 it has also been hosting the home games of De' Longhi Treviso (men's basketball Serie A2).

In the past it was home to very important men's teams such as Benetton Basketball Treviso and Sisley Volleyball Treviso. Quite a few final rounds of prestigious volleyball and basketball events were played in Palaverde like Eurocup final four in 2011, men's volleyball Champions Cup in 2000, men's volleyball Club World Championship final round in 1992 and men's volleyball Coppa Italia final four in 1991.
